## TRANSPORTATION PERMISSION

I give ONLY the following people permission to pick up my child from school. Please list all possible persons at this time. Please be sure to include yourself, spouse, and those whom you have listed as emergency contact. The office must receive additional requests in writing prior to the day that a new person will be picking up your child. Parents must call to give the school office notice of different persons picking up your child. If the office has not received the above mentioned notice, the school office will call to verify the person has permission to pick the child up. The child will not be allowed to leave school premises before receiving such verification.
